THE GLOBAL SHEET-METAL FORMING AND FABRICATION JOURNAL

ESSENTIAL READING FOR SHEET-METAL PROFESSIONALS

Stay One Step Ahead

ISMR is the world's ONLY international sheet metal magazine

The magazine is carefully targeted at the key companies, manufacturers and subcontractors in the most buoyant sectors of the industry and many of its readers are actively involved in the buying chain. Each issue, both print and digital, will reach over 40,000 qualified registered readers.

Acknowledged as the number one international sheet-metal forming and fabrication journal, International Sheet Metal Review offers truly global and independent coverage.

The success of this publication lies in a unique blend of technology, analysis and business issues presented in a fresh and lively format.

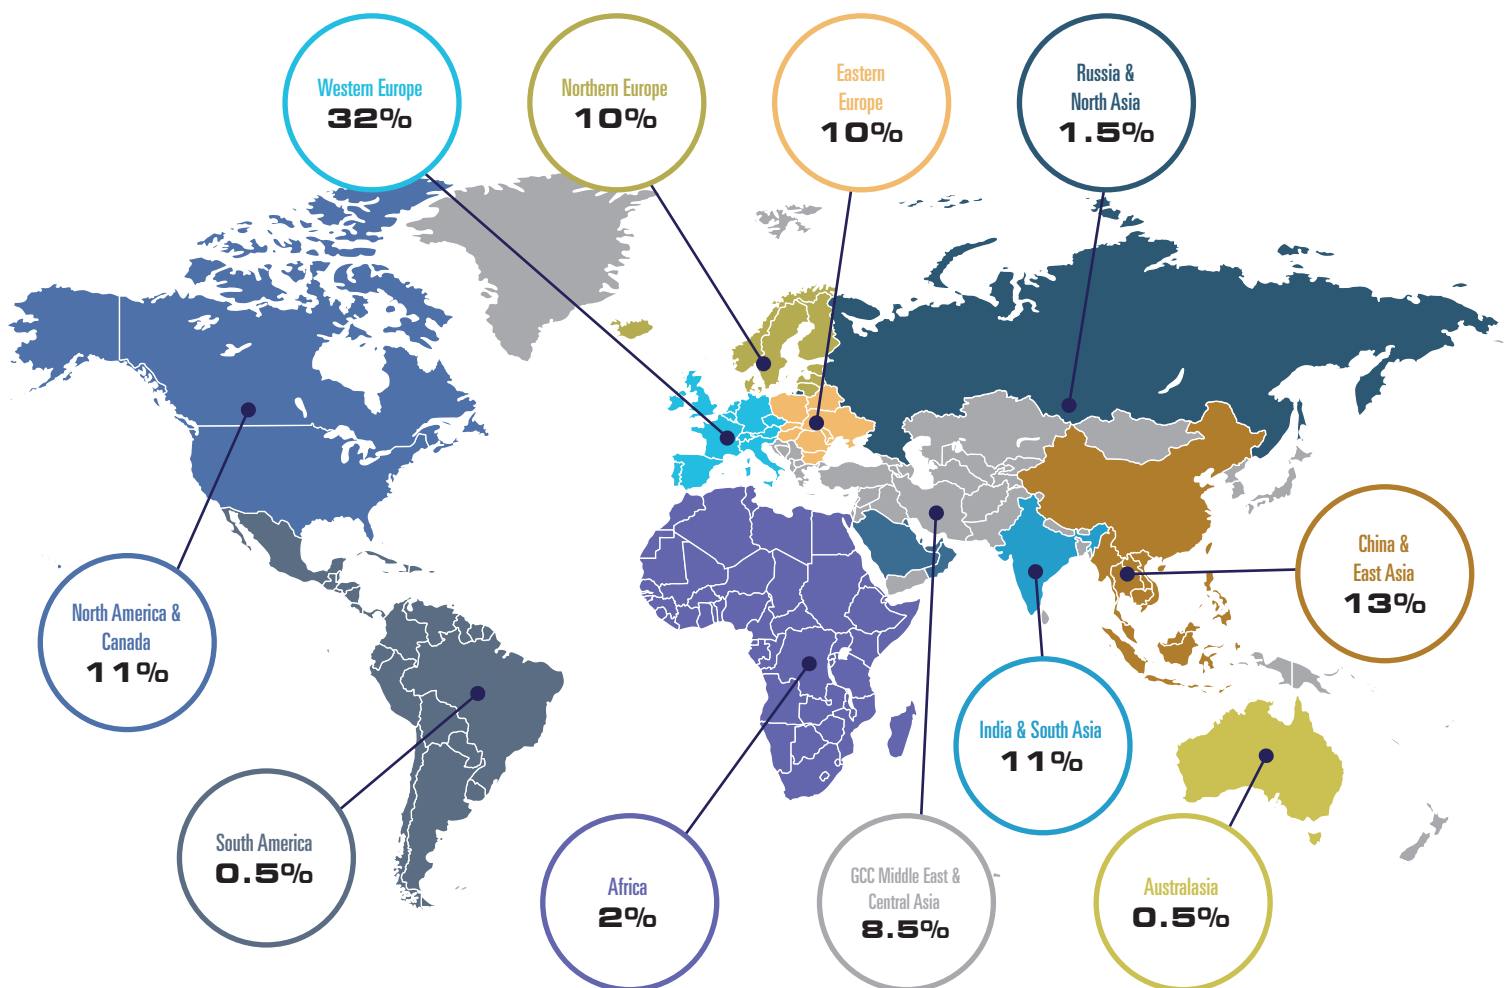

Incorporating interviews with leading international industry, government figures, academic and association figures, International Sheet Metal Review offers a strategic insight into the latest news; company and product developments; technological and technical advances; market trends and forecasts; innovations and new business opportunities.

Key issues are debated and regular, independent analysis into market prospects, opportunities and barriers can be found in each issue.

It also covers the latest industry trends and directions such as Industry 4.0; 3D printing/ additive manufacturing; Artificial Intelligence; smart factories; IoT and Augmented/Virtual Reality.

Published ten times per year, *ISMR* reaches global decision-makers in major end-user sectors such as subcontract job shops; automotive; defence; medical; domestic appliances, construction and aerospace.

GLOBAL CIRCULATION

Circulation by Job Title:

MEDIA INFORMATION 2023

Additional Promotional Opportunities

Full Company Profile

Including interviews with management as well as technology/product launches, case studies and company overview - in short, a thought-leadership opportunity.

You can choose from a range of options below (depending upon number of pages) or replace some of the options below with your own ideas:

- Front cover.
- Contents page (if required).
- A4 advert on inside front page or outside back page (or elsewhere, as specified).
- Company introduction (one or two pages).
- Interview with CEO (on strategy, future direction, figures to date, investment patterns, company ethos, response to COVID-19 etc.)
- Interview with sales or marketing director (on breakdown/overview of markets/sales, new products/technology launches, customers, market trends etc.)
- Interview with production manager (production facilities, equipment, efficiencies etc.)
- Customer case study (testimonials, product use, benefits etc.)
- Conclusion.

The profile is to establish thought leadership in the market, offer an overview of a company, its ethos, success and thoughts on markets/trends/customers as well as its technology/product break-throughs (backed up with, in some cases, comments from customers).

The profile can be bound into the centre of the magazine, as a pull-out, and run-on copies of the profile can also be provided as an option. The profile can also be uploaded onto the *ISMR* website too, for an additional fee.

Profiles can be four, six, eight or twelve pages long. Example costings are provided below. Please email bobby@in2publishing.co.uk to discuss your requirements.

**8 pages including covers
£8,000**

**12 pages including covers
£10,000**

EDITORIAL FEATURES - Month by Month

FEBRUARY 2023

Distribution at TIMTOS Taiwan

- Hydraulic and mechanical presses
- Press brakes and folders
- Precision engineering
- CAD/CAM
- Deep drawing
- Welding
- Industry report: Automotive market
- Regional report: France
- Exhibition preview: Global Industrie (France)

MARCH 2023

Distribution at Global Industrie (France)

- Fasteners in focus
- Laser cutting
- Hydroforming
- Tube forming
- Inspection, measurement and monitoring
- Regional report: Germany
- Industry report: Medical market
- Exhibition preview: Made In Steel (Italy)

APRIL 2023

- Handling, storage and stacking
- Focus on coil processing
- Focus on additive manufacturing/3D printing
- Press brakes and folders
- Joining
- Punch presses
- Regional report: Italy
- Industry report: Domestic/consumer sector
- Exhibition preview: Lamiera (Italy) and ITM Industry Europe (Poland)

MAY 2023

Distribution at Made In Steel (Italy), Lamiera (Italy) and ITM Industry Europe (Poland)

- Automation and robotics
- Waterjet
- Tooling
- CAD/CAM
- Surface finishing
- Plasma cutting
- Regional report: Poland
- Industry report: Construction sector
- Exhibition preview: Subcon (UK) and WIN Eurasia (Turkey)

JUNE 2023

Distribution at Subcon (UK)

- Hydraulic and mechanical presses
- Precision engineering
- Welding, joining and fastening
- Flexible manufacturing systems
- Hybrid technologies
- Deep drawing
- Industry report: Shipbuilding/marine markets
- Regional report: UK
- Exhibition preview: EMO (Germany)

JULY/ AUG 2023

- Tubefforming
- Control technologies
- Press brakes and folders
- Roll forming
- Focus on additive manufacturing/3D printing
- Laser and plasma cutting
- Focus on materials
- Industry report: Defence market
- Regional report: Turkey
- Exhibition preview: FABTECH (USA) and Schweissen & Schneiden (Germany)

SEPTEMBER 2023

Distribution at FABTECH (USA), Schweissen & Schneiden (Germany) and EMO (Germany)

- Focus on Germany
- Punch presses
- Inspection, measurement and monitoring
- Stamping and pressing
- Tooling
- Industry report: Power generation
- Regional report: USA
- Exhibition preview: Blechexpo (Germany)

OCTOBER 2023

Distribution at Blechexpo (Germany)

- Focus on coil processing
- Automation and robotics
- Handling, storage and stacking
- Press brakes and folders
- Materials
- Surface finishing
- Industry report: Electronic/general engineering
- Regional report: Asian markets

NOVEMBER 2023

- Waterjet
- CAD/CAM
- Welding, joining and fastening
- Punch presses
- Industry report: HVAC/air conditioning
- Regional report: Middle East
- Exhibition preview: SteelFab (Sharjah, UAE) and Southern Manufacturing (UK)

DEC 2023/JAN 2024

Distribution at SteelFab (Sharjah, UAE) and Southern Manufacturing (UK)

- Flexible manufacturing systems
- Roll forming
- Coil processing
- Handling, storage and stacking
- Control technologies
- Laser and plasma cutting
- Industry report: Aerospace market
- Regional report: Latin America
